This course explores the changing role of the European Union (EU) on the global stage using an interdisciplinary lens. Pooling together expertise from European Studies and Security Studies, we offer a unique course on the scope of the EU involvement in global affairs.

Students enrolled will participate in a conference on the European Union organized at ECU.

This is a Writing Intensive (WI) course, offered by the Honors College.

In addition to WI and Honors credits, the course counts towards the Political Science majors and minors and the electives in the Security Studies Program.
