MISSION STATEMENT

The Security Studies programs at ECU are focused on achieving the University’s missions. It is our goal to educate students and prepare them to compete for careers that will further their own success as well as contributing to the well-being of our society.

We do this through:

- Offering our graduate programs in a distance education format
- Preparing our students at all levels to confront and overcome security-related challenges. Our programs treat security issues as spanning levels of government from local to national and international. Responding to security issues requires an understanding of the global and multicultural contexts in which they are found.
- Learning about the many different disciplines that are involved in identifying and solving security problems. The Security Studies programs draw classes from 15 different disciplines within 3 colleges.

Students engaged in the Security Studies programs aspire to leadership positions in their career fields. Leadership concepts and principles are emphasized in the curriculum and reinforced in our classes.

East Carolina University is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees based on race, color, national origin, religion, gender, age, sexual orientation, or disability. An equal opportunity/affirmative action employer, which accommodates the need of individuals with disabilities.

Students’ degree requirements are determined by their catalog year. This brochure is for informational purposes only, and does not constitute a contractual agreement between a student and East Carolina University or the department.

Updated 10/09/2017
A student who specializes in security studies acquires the skills in writing, communication, and analysis that are critical to working in a career field related to homeland or national security. Students may work for any one of the 22 federal agencies that comprise the Department of Homeland Security, the Department of Defense, other federal departments or any of the national intelligence agencies that support the homeland security mission. At the state and local levels, students may work in law enforcement, health, environment, transportation, critical infrastructure protection or any number of jobs related to security.

The curriculum is grounded in the knowledge, skills, and abilities related to security career fields that are in demand in today’s competitive marketplace.

Currently, ECU has both a Master of Science in Security Studies and an interdisciplinary Graduate Certificate in Security Studies. Additionally, ECU offers a Multidisciplinary Studies: Security Studies track and an interdisciplinary Minor in Security Studies for undergraduates.

UNDERGRADUATE SECURITY STUDIES MINOR

ABOUT THE PROGRAM
The Interdisciplinary Undergraduate Minor in Security Studies 18 semester hours of course work, with 6 hours of core requirements and 12 hours of electives, across a number of academic disciplines.

CORE COURSES:

SECS 1000: Introduction to Security Studies
Basic concepts and principles of security policy planning and program implementation across multiple academic disciplines with application at the local, state, and federal levels of government as well as the private and nonprofit sectors. (This course will be offered only in the fall semester.)

SECS 4000: Senior Seminar in Security Studies
This is the capstone course in the Minor field of study. It provides practical application and exercises in security studies, to include threat-based scenarios, consequence management, and disaster assistance planning. (This course will be offered only in the Spring semester.)
