EAST CAROLINA UNIVERSITY
East Carolina University is the third largest of six constituent institutions of the University of North Carolina. Enrollment, as of 2017, stands at nearly 29,000. The university has ten professional schools with a 18:1 student-to-faculty ratio. The university is located within a two-hour drive of both the state capital in Raleigh and the Atlantic Coast beaches.

MISSION STATEMENT
The Security Studies programs at ECU are focused on achieving the University’s missions. It is our goal to educate students and prepare them to compete for careers that will further their own success as well as contributing to the well-being of our society.

We do this through:

• Offering our graduate programs in a distance education format
• Preparing our students at all levels to confront and overcome security-related challenges. Our programs treat security issues as spanning levels of government from local to national and international. Responding to security issues requires an understanding of the global and multicultural contexts in which they are found.
• Learning about the many different disciplines that are involved in identifying and solving security problems. The Security Studies programs draw classes from 15 different disciplines within 3 colleges.

Students engaged in the Security Studies programs aspire to leadership positions in their career fields. Leadership concepts and principles are emphasized in the curriculum and reinforced in our classes.

FINANCIAL ASSISTANCE
Graduate assistantships are sometimes available for full-time students. Assistantships will usually be in the Department of Political Science, but sometimes can be located in other academic units. Also, the Federal Work Study Program is now open to Graduate students. This program can help finance one’s education and does not require repayment. If you qualify for this program, you can be employed by the department in a graduate assistant-like capacity. Financial aid applications for student loans and other programs, including the Federal Work Study Program, are available through ECU’s Office of Financial Aid at www.ecu.edu/financial/

ADDITIONAL INFORMATION
The Graduate School application can be accessed at http://www.ecu.edu/cs-acad/gradschool/Apply-Landing-Page.cfm
The Master of Science in Security Studies program provides students an interdisciplinary approach to understanding and addressing the diverse domestic and international challenges to U.S. security. These threats may be posed by natural disasters or by man, whether through governments or non-state actors such as terrorist groups. The program is designed to enable students to evaluate situations and develop responses at the international, national, state, and local levels.
